She'll never leave

Impossible to conceive  
You'd rather be with than without

### A riff x4

Remember the good old days  
But love is like a dragonfly  
So beautiful, it will die  
And disappear before your eyes

I'm no philosopher  
I am no poet  
I'm just trying to help you out

Don't let it fool you  
Like it nearly fooled me, fear  
Don't let it take you  
Like it nearly took me

### A riff x4

And so you sit and wait  
For another man to take your place  
And when, when he comes  
Would you welcome him with open arms?  
You'll feel a hundred years younger  
You'll feel a hundred years younger You'll feel no fear

Don't let it take you  
Like it nearly took me, fear  
Don't let it fool you  
Like it nearly fooled me, fear  
Don't let it kill you  
Like it nearly killed me, fear

### A riff x2 to end riff
