

## BLAZE AND SYBILL'S LULLABY

G Bm C D7 x 2

**G**            **Bm**  
There's a rabbit hole  
**C**            **D7**  
That leads down into hell, dear  
**G**            **Bm**  
You could jump down if you wanna  
**C**            **D7**  
But you can't come home  
**G**            **Bm**  
There's a tall golden ladder  
**C**            **D7**  
That stretches high up into heaven  
**G**            **Bm**  
You could climb up if you wanna  
**C**            **D7**  
But you can't come home

**C**    **D7**    **G** **G/F#**                    **Em**  
Or you could stay with me for a little while  
**A**                    **A7**  
You know that home is wherever you are  
      **D**    **C**    **Bm**    **A7**  
Let me ride the lonely miles with you

You say such lovely words to me  
Hear your voice inside the wind dear  
When the wind don't blow  
I find your face and fallen shadows  
I need you close to me  
For my rhymes and writing rainbows  
Glide on earthly [ploughies?]            But you can't come home

Or you could stay with me for a little while  
You know that home is wherever you are  
Let me ride the lonely miles with you

G Bm C D7 x4

Or you could stay with me for a long, long while  
You know the moon lights up the trees for us  
So darling kiss me quickly 'fore I catch them blues

G Bm C D7

G
