D   F#   G   F#m   Em   A      x2

D                      F#                      G  
Well now then Mardy Bum      I see your frown and it's like

F#m                      Em  
looking down the barrel of a gun

                    D                      F#                      G                      F#m  
And it goes off and out come all these words oh there's a very pleasant side to  
Em                                      A  
you a side I much prefer, its one that

G      A                                      D      D                                      A  
laughs and jokes around      I remember cuddles in the kitchen yeah  
            Bm                                      G                                      A  
to get things off the ground and it was      up up and away  
            D D      A                                      Bm  
oh but its right hard to remember that      on a day like today when your all  
G                      A  
argumentative      and you've got a face on

D   F#   G   F#m   Em   A      x1 without vocal

Now there Mardy Bum      oh im in trouble again  
aren't I?      I thought as much      Coz you turned over there  
pullin' that silent disappointment face      the one that I can't bear  
well can't we...

just laugh and joke around      remember cuddles in the kitchen yeah  
to get things off the ground and it was      up up and away  
oh but it's right hard to remember that      on a day like today when you're all  
argumentative      and you've got a face on.

F#5                      G5      etc.
